LISTENING TO COMMUNICATE

Happy Ears Ranch Sanctuary offers

A safe + positive place to practice relationship building and respect and to improve your horsemanship.

Build a relationship with horses. Observe how they communicate. Notice how listening improves communication on the ground, in the saddle, and with other humans!

You are invited to gain confidence with Wylie, Osa, Puma, and Tony! Together you can practice trust and kindness.

All humans interested in building relationships are welcome, even those fearful of horses!
